**MEROTTO**  
AZIENDA AGRICOLA

### The Producer:

The original, historical area for the production of Prosecco is centred on the towns of Valdobbiadene and Conegliano, to the north of Venice and in the shadows of the Alps. The Merotto winery and vineyards lie between the two towns. The name of the wine originated from the village of Prosecco north of Trieste in Friuli but found its natural home on the alpine slopes in the Veneto region, particularly around the town of Valdobbiadene. Graziano Merotto started his winery in the 1972 and now owns 50ha of vineyards from which he makes his award winning wines.
